

Akhani shaik

Front-End Developer

+91-7893786004 shaikakhani84@gmail.com https://www.linkedin.com/in/akhani-shaik/ Bangalore

SUMMARY

A highly skilled front-end developer with 4 years of experience in designing and developing responsive, user-centric web applications. Proficient in React.js, Next.js, JavaScript, HTML5, and CSS3, with expertise in optimizing performance, building reusable components, and integrating RESTful APIs to enhance functionality and efficiency. Adept at collaborative development, team leadership, and mentoring junior developers to foster growth and high-performance teams. Strong problem-solving abilities with a focus on delivering scalable and maintainable solutions. Adept at collaborating with cross-functional teams in Agile environments, working closely with UI/UX designers, backend developers, and product managers to deliver pixel-perfect, high-performance applications. Experienced in leveraging Git, Webpack, and Jest to streamline development and testing processes. Passionate about writing clean, maintainable code, improving user experience, and staying updated with industry best practices and emerging technologies.

SKILLS

Agile	Appium	API Integration	Axios	Allure-Report	Babel	bootstrap	CI/CD	Confluence	
CSS	Git	Github	Github Actions	Headless CMS	HTML	JavaScript	Jenkins	Jest	Json
K6 Grafana	Material UI	NextJs	NodeJS	Postman	PWA	Python	Playwright	ReactJs	
Redux	redux saga	restful api	SASS	Sentry	SonarQube	TypeScript	Webpack		

EXPERIENCE

Software Engineer II

Apexon

08/2021 - Present Bangalore, India

- Developed and enhanced software functionality using React.js, Next.js, Redux (Saga), and TypeScript.
- Implemented Server-Side Rendering (SSR) using Next.js to enhance performance and SEO ranking
- Enhanced code quality and error management with SonarQube and implemented Sentry for real-time monitoring.
- Developed and tested features using Jest and Enzyme, ensuring robustness and reliability, increasing test coverage from 60% to 80%
- Assisted team members in overcoming development challenges, fostering a collaborative team environment.
- Ensured mobile responsiveness and PWA compliance, boosting user engagement.

Software Engineer

ZiniosEdge

03/2021 - 07/2021 Bangalore, India

- Built reusable React components to improve application efficiency and maintainability.
- Collaborated effectively with designers and backend developers to ensure seamless integration and functionality.
- Developed a modular React codebase, reducing maintenance efforts by 40% and improving reusability for future projects.
- Developed comprehensive unit tests for React components to ensure reliability and robust performance, leading to a 90% pass rate in automated CI/CD pipelines.
- Managed task prioritization to ensure on-time releases and successful module implementation per business requirements.

PROJECTS

Aster Virtual Care Platform

10/2023 - Present

- The MyAster app comprises three main modules: Consult Doctor, ePharmacy, and Home Care, each designed to cater to different aspects of patient care and convenience.
- The Aster-Home-Care module enhances user accessibility by allowing them to order nursing care, therapy, or medical equipment delivered directly to their doorstep.
- This module offers personalized healthcare solutions, enabling users to take control of their health journey with ease.
- The app integrates patients, hospitals, pharmacies, and laboratories under one roof, creating a comprehensive healthcare platform.
- Includes features for scheduling online appointments with hospitals, providing detailed information such as doctor availability, fee structures, treatment facilities, and user reviews.

PROJECTS

Zaxby

02/2022 - 09/2023

- Developed a responsive and scalable web application for US-based users, ensuring a seamless experience across different devices and improving accessibility and usability.
- Implemented server-side rendering (SSR) and static site generation (SSG) to enhance performance, improve SEO rankings, and enable faster content delivery by preloading essential resources.
- Optimized state management to ensure smooth data flow and real-time updates, enhancing user interactions and improving application stability.
- Improved efficiency through lazy loading, code splitting, and caching.
- Worked in an Agile environment, collaborating with UI/UX designers and backend teams while following CI/CD best practices.

InterMiles

08/2021 - 02/2022

- Designed a responsive and mobile-friendly interface to enhance user experience.
- Integrated APIs to enable seamless flight bookings, hotel reservations, and lifestyle rewards, ensuring a smooth and efficient transaction process for users.
- Enhanced performance with optimization techniques like lazy loading and caching.
- Delivered new features and updates in collaboration with designers, backend developers, and product managers.
- Ensured modular, scalable, and maintainable code following best practices.

SoulWallet

03/2021 - 07/2021

- Developed a user-friendly platform for comparing financial products like credit cards, loans, and insurance.
- Integrated real-time financial data to assist users in making informed decisions.
- Conducted unit testing to maintain code quality and reliability.
- Worked in an Agile environment to efficiently deliver new features.
- Helps users make informed choices that maximize savings and match their financial goals.

KEY ACHIEVEMENTS

Pat on Back Award

Received recognition for outstanding performance through the Pat on Back Award and acknowledged as the Best Team Member.

Best Team Member Award

Successfully contributed to team performance and was recognized as the Best Team Member.

EDUCATION

B.Tech

JNTUA Engineering College

10/2014 - 05/2017

MBA

Sri Krishnadevaraya University

06/2019 - 03/2021
